

InfinityPoll - Prediction Platform User Guide

What is InfinityPoll?

InfinityPoll is a decentralized prediction platform built on the InfinityChain ecosystem. Users can participate in prediction markets by placing bets on various events using iChain tokens, with real-time notifications via Telegram.

Key Features

Prediction Markets

- Browse and participate in various prediction events
- Place bets on event outcomes using iChain tokens
- Track your predictions and betting history
- View real-time odds and statistics

Wallet System

- Starting balance: 1,000,000 iChain tokens
- Milestone bonus: Stake 200,000 iChain to unlock 20,000 bonus tokens
- View transaction history and current balance
- Track wins, losses, and total stakes

Telegram Integration

- Seamless authentication via Telegram
- Real-time notifications for:
 - New poll creation
 - 30-minute deadline reminders
 - Poll result announcements
- Interactive miniapp experience

Gamification

- Win/loss animations when events conclude
- Milestone celebration for bonus achievements
- Visual feedback on betting outcomes
- Leaderboard tracking (coming soon)

How to Use InfinityPoll

Getting Started

1. Access the Platform

- Visit: ipoll.live (<https://ipoll.live>)
- Or open the Telegram miniapp

2. Authenticate with Telegram

- Click "Authenticate with Telegram"

- Your account is automatically created
- Receive 1,000,000 iChain starting balance

3. Browse Events

- View all available prediction events on the homepage
- Check event details, deadlines, and current odds
- Filter by categories (if available)

Placing Bets

1. Select an Event

- Click "Place Bet" on any active event
- View detailed information and options

2. Choose Your Prediction

- Select the outcome you believe will occur
- Enter your bet amount
- Review potential winnings

3. Confirm Your Bet

- Submit your prediction
- Receive confirmation notification
- Track your bet in your profile

Viewing Results

- **Active Events:** Shows time remaining until deadline
- **Concluded Events:** Displays the actual outcome
- **Your Bets:** See if you won or lost with animations
- **Wallet Updates:** Winnings are automatically credited

Milestone Bonus System

How It Works

1. **Initial Balance:** Start with 1,000,000 iChain
2. **Stake Requirement:** Place bets totaling 200,000 iChain
3. **Bonus Unlock:** Receive 20,000 iChain bonus
4. **Celebration:** Enjoy the milestone animation!

Tracking Progress

- View your total stakes in your profile
- Monitor progress toward the milestone
- Bonus is automatically credited when reached

Notification System

Telegram Notifications

You'll receive notifications for:

1. **New Polls**
 - Instant alerts when new events are created
 - Details about the event and deadline
2. **Deadline Reminders**
 - 30-minute warning before betting closes
 - Reminds you to place your final bets
3. **Results Announcements**
 - Immediate notification when results are declared
 - Shows your win/loss status and amount

Managing Notifications

- All notifications are sent via Telegram bot
- Ensure you've authenticated through Telegram
- Check notification preferences in your profile

Understanding the Platform

Event Lifecycle

1. **Active:** Betting is open, deadline not reached
2. **Ended:** Deadline passed or admin concluded the event
3. **No more bets:** Event concluded, waiting for results
4. **Resolved:** Outcome declared, winners paid

Betting Rules

- Minimum bet: 100 iChain
- Maximum bet: Your current balance
- No betting on concluded events
- Cannot change bet after placement
- Winnings calculated based on final odds

Wallet Management

- **Balance:** Your current available funds
- **Total Won:** Cumulative winnings
- **Total Lost:** Cumulative losses
- **Total Stakes:** All bets placed (for milestone tracking)

Admin Features

Event Management

Admins can:

- Create new prediction events

- Set deadlines and outcomes
- Conclude events manually
- Declare winning outcomes
- Send custom notifications

User Management

- View user statistics
- Monitor platform activity
- Manage notifications
- Review betting patterns

Technical Details

Platform Stack

- **Frontend:** Next.js 14 with TypeScript
- **Backend:** Next.js API Routes
- **Database:** PostgreSQL with Prisma ORM
- **Authentication:** NextAuth.js with Telegram
- **Notifications:** Telegram Bot API
- **Styling:** Tailwind CSS with shadcn/ui

Security

- Secure Telegram authentication
- Protected API routes
- Server-side validation
- Admin-only access controls
- No betting on concluded events

Performance

- Real-time updates
- Optimized database queries
- Fast page loads
- Responsive design
- Mobile-optimized

- **Twitter/X:** [Follow us](https://x.com/infinitychain) (https://x.com/infinitychain)
- **Website:** [InfinityChain](https://infinitychain.com) (https://infinitychain.com)

Support

Common Issues

Can't authenticate?

- Ensure you're using the Telegram app

- Check your internet connection
- Try refreshing the page

Bet not going through?

- Verify you have sufficient balance
- Ensure event hasn't ended
- Check minimum bet amount (100 iChain)

Not receiving notifications?

- Verify Telegram authentication
- Check bot is not blocked
- Ensure notifications are enabled

Balance not updating?

- Refresh the page
- Check transaction history
- Allow a few seconds for processing

Getting Help

For additional support:

- Contact admin through the platform
- Join our Telegram community
- Check the About page for more information

Roadmap

Coming Soon

- Leaderboard system
- More event categories
- Enhanced analytics
- Social sharing features
- Mobile app

Future Features

- Multi-outcome events
- Live betting
- Tournament mode
- Referral system
- NFT rewards

Best Practices

Responsible Betting

- Only bet what you can afford to lose
- Research events before betting
- Don't chase losses
- Set personal limits
- Take breaks if needed

Maximizing Success

- Study event details carefully
- Monitor odds changes
- Diversify your predictions
- Track your performance
- Learn from outcomes

Community Guidelines

- Respect other users
 - No spam or abuse
 - Follow platform rules
 - Report issues promptly
 - Engage positively
-
